As a team, the mood is a bit positive. There are some sore spots, but the team is trying to grow and improve as a whole. Day 1 Started off by winning all three of our games (Oggs, Oysters, and Trout). Everyone was genuinely excited and happy to be out there with each other. I know that the team has worked hard all week, and I was happy to see it. Day 2 We played well as a team, but we lost 3-1. We found ourselves on the wrong end of a lot of one-on-one situations. We need to keep working hard to improve. Day 3 Played really well, again. Our ability to work together as a team has improved. We are building a team that is comfortable with each other and playing to our strengths. Day 4 Lost to Seeded team before having a fantastic comeback victory against a non-seeded team (Leftover). There is still room to grow, but our team is starting to gel. Day 5 Won our first seeded game. We played well, the refs were good, and we played to our strengths. The team is still growing, but we're starting to find a rhythm. Day 6 Threw a stinker. f3e1b3768c
