Download

For Windows 7, Vista, XP and 2000: Download and run the program to install this driver. In the Device Manager, select the Storage Device. Click the Uninstall button and then click OK. Repeat this for any USB Mass Storage Device found on your PC.

Run the program to install this driver. Click Yes to continue, and the driver will be installed. NOTE: The VCI USB Device Driver does not install itself. If the program fails to install or if the driver is not added to the "Devices and Printers" dialog box, follow the instructions for additional installation steps, below. NOTE: The VCI USB Device Driver only supports the VCI™ model. If you need to upgrade your VCI model, you will need to purchase the new version, either online or through your VCI dealer.

The VCI USB Device Driver for Windows 7 or Vista is compatible with the following VCI models: CVN200B CVN200C CVN300B CVN300C If you have installed the VCI USB Device Driver, you will see it listed in the "Devices and Printers" dialog box. You can use it to configure the device or to update the firmware. NOTE: If the "Devices and Printers" dialog box does not list the VCI USB Device Driver, you will need to download the VCI USB Device Driver for Windows 7 or Vista, install it, and then add it to the "Devices and Printers" dialog box. To add it, select the "Devices and Printers" dialog box, click on the "Devices and Printers" tab, and then click on the "+" button in the bottom left corner of the "Devices and Printers" dialog box. Select the check box next to "VCI USB Device", and then click "OK". Then follow the instructions for installing the

driver, above. NOTE: If you are using a PC with Windows XP, the VCI USB Device Driver for Windows 7 or Vista will not function. You will need to use the VCI USB Device Driver for Windows XP to update your VCI, or you will need to update it yourself. To update the VCI, or to update the VCI USB Device Driver for Windows XP, see the instructions on this [page.module.exports = { globals: { f3e1b3768c](#)
