He is the most hunted person on the planet. He is, however, targeted by the CIA who have both wanted to remove him and make him their #1 priority. He has been profiled and investigated as a potential threat and is considered to be a high priority for various agencies. He has managed to elude capture. He is one of the most wanted men on the planet and is still considered a high priority by various agencies. He is said to have been born in Uganda in 1960. His last known place of residence is in the Philippines where he is currently living. Read Jeffrey Deaver's October List, available on Rakuten Kobo. . and find the mysterious document known as the "October List" within 30 hours.... I knew that the "October List" was classified information, but I didn't realize it would be so important. I can now confirm that he was part of the information I received this afternoon. I think at this point I should say that I am indebted to Jeffrey Deaver for his work. The October List was presented to more than 1,000 journalists who received a copy of the document. I want to let everyone who read this know that this information was indeed helpful. fffad4f19a
