What's New in the Elegant Stickies?

Elegant Stickies is an elegant sticky notes widget for your desktop that shows your sticky notes as its own widget. Save any text info to sticky notes and check them out at any time. - right-click to remove - free to use - more features to come: sticky notes, lists, calendars Elegant Stickies is very easy to use. You only need to click on its icon, right click on the desktop, select sticky notes and there will be your own sticky notes displayed. With this way, all your sticky notes are saved on your desktop, so you can have a look of your notes whenever you need. So far, Elegant Stickies doesn't store any notes, so if you don't use it, it will not save any of your notes. But, you can still use it to see your notes right on your desktop. Click on Elegant Stickies and you will see a list of notes. Click on the sticky notes you want to see, and then select "save sticky notes". Then, you can right-click the sticky note to get more options. There is the option to add, edit or delete notes. You can also change the color and/or width of the sticky notes. Is not Elegant Stickies perfect for you? You can still use it, if you want. Just click on its icon and a list of notes will be displayed. Click on the sticky notes you want to see and select "save sticky notes". Then, you can right-click the sticky notes you want to see to change the color, width, and so on. i.e. if you like Elegant Stickies, just give it a try. You won't need to download anything. It is fully functional right away. Version 1.00 (1.22 on 11.10) - last release Requirements: None Installation: Download the archive and open it. You will find the Elegant Stickies on the desktop. If you don't have sticky notes on your desktop, just click on Elegant Stickies and you will see a list of sticky notes. If you already have sticky notes on your desktop, just select the sticky notes you want to see, then right click on them and select "save sticky notes". If you don't have any sticky notes on your desktop, just click on Elegant Stickies and you will see a list of sticky notes. Then click on the sticky notes you want to see. Note: You can right click on any sticky note to get more options.
