Category: Web Design If you were looking for a simple and straightforward shopping cart, this web design is certainly not for you. This shopping cart feels and looks nothing like the average cart that you find on the web. You might think this is a joke, but this design is real. It has a lot of great features that will [...] Ben is a great college student with a passion for computer science. He loves technology and especially loves learning about web design. He wants to learn all that he can about this craft so he can be an expert in no time. If you are looking for a great looking and intuitive web design, this one might just be for you. With its large icons and font, it is the kind of design that is easy for any user to navigate and find what they are looking for. These are the most impressive HTML5 themes that you can find around right now. While it may not be entirely possible to learn some of the advanced features of HTML5 through this article, it is an excellent starting point for those who want to learn more.
